

A. Pre Flight:

1. Download Safe at Home App on HK Phone (instructions: <https://www.coronavirus.gov.hk/eng/stay-home-safe.html>)
2. Fill out online Health Declaration form right before you leave for the airport and save the picture of the QR Code (form is valid for 24 hours) - <https://hdf.chp.gov.hk/dhehd/?lang=en-us> (instructions on each question on next page)

B. On Flight:

1. If on CX, CX should be handing you paper forms, fill them all out, don't miss boxes

C. Arriving in Hong Kong (may not be exactly the same process):

1. Getting off the plane, heading to immigration
2. Before immigration you meet an officer who will ask you for the QR code (see A.3 above)
3. Hand in filled forms (you may need 2 forms per person) - just fill in everything handed to you by flight attendant (don't miss any box as any missed box might cause delays after you land)
4. At this point, forms and HKID or passport are verified and you get a lovely bracelet (put on your right hand and make sure it is not too tight/uncomfortable). Also officer might check if you have the StayHomeSafe App
5. Next step you are sent to another officer who calls on the phone number you mention to verify your phone no
6. Next officer gives you a neckband after signing all the forms and gives you only 1 form back and keeps a copy then you go to pass immigration and collect baggage.
7. Use toilet NOW before getting your luggage
8. Get your luggage
9. Take the exit to hall A - there you will be guided to the bus and help is available to upload the bags and get on the bus - it takes you to AWE to drop the bags and you get a tag. Later you return to the same bus which takes you to the next hall for the saliva test.
10. Line up with hkid and form and they will call You and explain how to do the test. They will give you a tag with a number that's the number which you attach to the neckband given earlier.
11. Your given a kit with 2 tissues, one saliva collection bottle, cone shaped funnel, 2 alcohol wipes and green paper with your details on.
12. Go watch the video explaining how to do the Deep throat spit test
13. After test, you must wash your hands and go to the exit sign which leads you back to hall you dropped your bags.
14. When entered the hall they may offer food and 1 water bottle each (or the food will be delivered later but you can ask for water). Take a seat and wait for the result... they seat you as per your flight
15. Staff came to desk and will check your form.

16. Keep waiting until they call by tag number and table/seat number to hand out the results and tell you to do the 2nd Saliva test at home on the 12th day. They gave out another envelope with a testing kit inside. Please double check that the testing kit is inside.
17. Show your tags and pick luggage and head out where you will show your release form and they show you how to leave to Exit. If someone is picking you up, you will be exiting out of the West Hall of AWE.
18. Head home within 2 hours and check yourself home on the Safe At Home App on your phone.
